- TO OUR CUSTOMERS -

June 14, 2024

Directive 2011/65/EU (RoHS II), 2015/863/EU (RoHS III)

Dear Sir or Madame,

it goes without saying that we comply with all legal requirements during production. Our products are designed in such a way that, according to the current state of knowledge, they do not cause any health risks for the user or any damage to the environment when used as intended.

We hereby assure you that our products comply with the restrictions of the currently valid directive 2011/65/EU (RoHS II) and 2015/863/EU (RoHS III) and are therefore compliant. Lead may be a component of the materials used in some fuses. Exemption 6c (in brass up to 4% Pb) and exemption 7a (in high-temperature solder with more than 85% Pb) apply. Please enquire about the current status of individual fuses at applikation@siba.de.

We have provided all information to the best of our knowledge and belief. They correspond to the current state of the art. We hope that we have answered your enquiry to your satisfaction. If you have any further questions, please do not hesitate to contact us.

With kind regards

SIBA GmbH
